Liam Turpin
Therapy Assistant

Liam has successfully completed his Honours in Psychology. Throughout his degree, his high performing units were Psychopathology, Developmental Psychology, and Applied Child and Adolescent Psychology.

His passion and enthusiasm for working with people has led him to obtain experience in a variety of roles. In the past, Liam coached kids to learn how to ride skateboards and scooters for SkaterHQ. This role involved implementing engaging outdoor programs for a large group of kids whilst remaining attentive to safety concerns.

In 2019, he worked in a nursing home which involved attending to the needs of residents with room maintenance, cleaning and providing emotional support.

Liam also worked in an administrative role for a psychology clinic, and he currently volunteers for Lifeline's crisis support line, offering support for individuals during difficult times. These roles require empathic and attentive concern for the needs of others.

Liam loves working with people and plans to complete a master's in clinical psychology in the future. In his spare time, he loves to go surfing, kickboxing, reading, fishing, and camping.
